

RESCUE PATH

1.0 BAR

A Trusted IDEX
Fire & Safety Brand

RESCUE PATH

1.0 BAR

In Operation:

- Rescuing people who are drowning or who have fallen through ice
- Rescue missions on unstable ground
- Traversing stretches of water or boggy ground
- Emergency sea rescue

Benefits:

- Inflated and ready to use in seconds
- Several paths variably connectable
- Optimum edge profile for pulling persons on board

Guaranteed Quality:

- Individually tested (with inspection seal)
- Integrated safety valve prevents overinflation
- Tear-proof material

Always retain sure footing - even on unstable ground!

With Vetter rescue paths, your team can walk safely across stretches of water, ice, moorland and bog. The rescue paths require very little compressed air and are ready to deploy in seconds. The three standard lengths of 6, 10 and 15 metres (19.2 ft., 32 ft. and 48 ft.) can be connected, so you will be prepared for any emergency scenario. The convenient anti-slip strips provide your team with a firm grip to safely rescue people who are drowning or sinking.
